

Speaker Profile

Tham Joon Nam

Corporate Business Strategist – West Asia
Novell Singapore

As Business Strategist, Joon Nam's primary responsibility is to promote Novell's solutions combining both the innovation of open source and standards based commercial software.

Joon Nam brings over 14 years of industry experience in Asia to his role and is focused on delivering business value for customers by addressing security and compliance challenges through Identity Management. He also runs Novell's Discovery workshops to help customers determine areas of cost containment and strategies for Open source and Linux.
